2024 – Present

ADDIS ABABA UNIVERSITY

LANGUAGES

- English
- Amharic

PROFILE

Motivated and detail-oriented Computer Scienc student at Addis Ababa University with hands-on experience developing software applications using C++, Java, SQL, and modern web technologies. Familiar with object-oriented programming, database management, data persistence, and Git/GitHub version control. Experienced in building desktop applications with Qt and Java Swing, as well as developing web projects using Next.js, TypeScript, and Tailwind CSS. Passionate about problem-solving, web development, and creating practical software solutions while continuously strengthening technical skills.

PROJRECTS

Student Management System — C++ / Qt 6

- Developed a desktop application featuring student record management, multi-account login, live search, filtering, and dashboard statistics.
- Integrated SQLite for data storage and implemented CSV export, sorting, and light/dark themes.

EthioTour Connect — Java

- Built a Java Swing tourism application for exploring Ethiopian destinations and managing tours, bookings, and booking statuses.
- Integrated database technologies, Ethiopian calendar functionality, and simulated payment processing.

Wondie Car Rental Website — Next.js / TypeScript

- Developed a modern car rental website using Next.js, TypeScript, and Tailwind CSS with reusable components and responsive navigation.
- Implemented vehicle listings, scroll-based animations, and an animated car visual to enhance the user experience.

LEADERSHIP & VOLUNTEERING

- **Campus Ambassador** — Eco Friend Global Movement: Participating in campus-based environmental awareness and sustainability initiatives.
